

ANSH SHARMA

Data Analyst

✉ anshisabest111@gmail.com | ☎ +91-9039850207 | 📍 Greater Noida, Uttar Pradesh, India | LinkedIn: <http://linkedin.com/in/ansh-sharma-53b35a411>

PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong interest in Artificial Intelligence, Machine Learning, and Software Development. Skilled in Python, Java, C++, SQL, and web technologies, with hands-on experience developing academic and personal projects involving deep learning, computer vision, and full-stack development. Strong problem-solving and analytical abilities with a passion for learning emerging technologies and building innovative solutions. Experienced in collaborative project work, technical presentations, and adapting quickly to new tools and frameworks.

KEY SKILLS

Technical Skills:

Python • Java • C++ • SQL • Machine Learning • Deep Learning • Data Structures & Algorithms • DBMS • Git/GitHub • OpenCV • Neural Networks • Problem Solving

Soft Skills:

Communication • Teamwork • Leadership • Problem Solving • Time Management • Critical Thinking • Adaptability • Analytical Thinking • Collaboration • Quick Learning

WORK EXPERIENCE

Data Analyst Intern | [Lysandra Group of Companies](#)

Gurgaon, Haryana • May 2026 - Present

- Assisted in preparing reports, summaries, and visualizations for stakeholders.
 - Collected, organized, and analyzed data to support business and operational decisions.
 - Used Microsoft Excel and data analysis techniques to identify trends and patterns.
 - Collaborated with team members to derive insights and support data-driven decision-making.
-

EDUCATION

B.Tech in Computer Science

Bennett University • Greater Noida, Uttar Pradesh • 2024-2028 • GPA: 7.87/10

- Relevant coursework: python, DSA in java, AIML.
-

PROJECTS

LifeSync | Tools/Tech Used: React, Node.js, Express.js, MongoDB, JWT, Gemini API.

- Developed a full-stack web application that analyzes lifestyle habits such as sleep, stress, posture, diet, exercise, and sitting time to estimate potential health risks.
- Built a responsive React-based dashboard with an intuitive UI for user assessments and health insights.
- Implemented a secure backend using Node.js and Express.js with JWT authentication for protected user access.
- Designed a MongoDB database to store user assessments, reports, and AI chat history efficiently.
- Created a rule-based risk scoring engine to provide transparent and explainable health risk analysis.

- Integrated an LLM-powered AI Advisor using Gemini API with fallback handling for reliable responses and recommendations.
- Strengthened skills in full-stack development, API design, authentication, AI integration, and data-driven user experience design.

Tactical Decision & Analysis Support System | *Tools/Tech Used: PyTorch, Pygame, Gymnasium, BiLstm*

- Developed TDASS (Tactical Decision & Analysis Support System) for AI-driven battlefield intelligence and tactical analysis.
- Built a real-time simulation environment using Python, PyTorch, Pygame, and Gymnasium.
- Generated and processed a 100K-row synthetic battlefield dataset with terrain, morale, fuel, and combat features.
- Implemented dual Bidirectional LSTM models for enemy action prediction and combat posture classification.
- Achieved up to 90% validation accuracy with lightweight models optimized for CPU-based real-time inference.
- Designed interactive tactical dashboards featuring threat heatmaps, fog-of-war, HP tracking, and live HUD visualizations.
- Enhanced AI-based decision support through predictive analytics, Monte Carlo threat mapping, and tactical feasibility scoring.

CERTIFICATIONS & COURSES

- The Bits and Bytes of Computer Networking - Coursera
- Introduction to Microprocessors - Coursera
- Operating System and You: Becoming a Power User - Coursera

EXTRACURRICULAR & ACHIEVEMENTS

- Actively participated in AI/ML projects, coding challenges, and technical workshops to enhance problem-solving and development skills.

ATS TIP: Use simple fonts (Arial/Calibri), no tables for layout, no headers/footers for key info, no graphics or columns. Save as .docx or plain PDF. Match keywords from the job description exactly.
